Description of Project & Position

Title of the Project	: Study on labour Influx under the Civil Works of Assam Agribusiness and Rural Transformation Project (APART)
Funded by	: Assam Rural Infrastructure and Agricultural Services Society (An Autonomous Body of the Govt. of Assam), Project Coordination Unit (PCU) of the World Bank financed Assam Agribusiness and Rural Transformation Project (APART).
Name of the Post	: Data Analyst
No. of Positions	: 02
Location	: TISS Guwahati Campus, Assam
Duration	: 4 Months (immediate after selection)
Remuneration	: Rs. 30,000/- per month (Consolidated)
Project description	: The study intends to understand labour influx and its various modalities in the state-led development projects. Assam Rural Infrastructure and Agricultural Services (ARIAS) Society, an autonomous body under the Government of Assam (GoA), is implementing World Bank financed Assam Agribusiness and Rural Transformation (APART) project which tries to “add value and improve resilience of selected agriculture value chains, focusing on smallholder farmers and agro-entrepreneurs in targeted districts of Assam”. Under supply chain support, the project will be supporting civil works to rehabilitate rural markets, rural roads and warehouses. In most of the civil works, required labour force and associated goods and services under the contractors are migrated from outside the location of civil work that leads to temporary settlement of labourers in the construction sites. This movement of contracted labour is termed as labour influx and carries both positive and negative impacts on the host community. Against this background, the study looks at to understand the ‘livelihood security’ of labour influx, the impact of the influx on the host community, and the mitigation strategies of influx as well as host community.
